# Contents of volume 6

No. 1: pp 1– 72 published July 6, 1992
No. 2: pp 73–140 published September 18, 1992
No. 3: pp 141–192 published April 6, 1993
No. 4: pp 193–254 published July 5, 1993

Anderson JH: Composite registers 141
Attie PC, Francez N, Grumberg O: Fairness and hyperfairness in multi-party interactions 245
Attiya H → Lynch NA

Babaoğlu Ö → Drummond R
Bagrodia RL → Tsay Y-K
Broy M: Algebraic and functional specification of an interactive serializable database interface 5

Drummond R, Babaoğlu Ö: Low-cost clock synchronization 193

Enders R, Filkorn T, Taubner D: Generating BDDs for symbolic model checking in CCS 155

Filkorn T → Enders R
Francez N → Attie PC

Grumberg O → Attie PC

Herman T: Self-stabilization: randomness to reduce space 95

Israeli A, Li M: Bounded time-stamps 205

Kaldewaij A, Udding JT: Rank order filters and priority queues 99
Katz S, Peled D: Verification of distributed programs using representative interleaving sequences 107
Kurki-Suonio R: Operational specification with joint actions: serializable databases 19

Lam SS, Shankar AU: Specifying modules to satisfy interfaces: a state transition system approach 39
Lamport L: Critique of the Lake Arrowhead Three 65
Li M → Israeli A
Liskov B: Practical uses of synchronized clocks in distributed systems 211
Lynch NA, Attiya H: Using mappings to prove timing properties 121
Lynch NA → Welch JL

Myoupo JF: Mapping dynamic programming onto modular linear systolic arrays 165

Neiger G, Tuttle MR: Common knowledge and consistent simultaneous coordination 181

Panangaden P, Taylor K: Concurrent common knowledge: defining agreement for asynchronous systems 73
Peled D → Katz S

Schneider FB: Introduction 1
Shankar AU → Lam SS

Taubner D → Enders R
Taylor K → Panangaden P
Tsay Y-K, Bagrodia RL: Some impossibility results in interprocess synchronization 221
Tuttle MR → Neiger G

Udding JT → Kaldewaij A

Welch JL, Lynch NA: A modular drinking philosophers algorithm 233
